## **FLASH HIDERS**

FLASH HIDER FH1401 Patent SE 538 729 C2

The Swedish Ordnance flash hider for the Browning M2 HMG reduces muzzle flash to near nothing, even when using low cost surplus ammunition.

The Swedish Ordnance flash hider for the Browning M2 HMG main advantages are reliability and simplicity. With only two solid parts it is easily installed and removed within seconds using the unique (Patent pending) fixation method. Using the tools that are supplied together with the flash hider, installation and removal is even quicker and simpler. Patent: SE538729C2

The Flash hider is delivered in a protective tube made from clear plastic. The packing tube can and may be used as muzzle cover for the M2 with mounted flash hider in conditions like rain, snow, sand and mud.

We also offer a disposable chamber and muzzle cover for the Browning M2 barrel.

With FH 1401 mounted, the cover allows you to fire NM 140 API and NM 160 API-T incendiary rounds as first round through the cover without igniting the incendiary projectile.
